PROFESSIONAL SUMMARY

AI & Data Science undergraduate combining data analysis, full-stack development, and browser automation: cleaning data and building Power BI dashboards, shipping web apps with payments and background jobs, and automating workflows with Selenium. Best Performer at Elevate Labs.

TECHNICAL SKILLS

Data Analytics	Python, SQL, pandas, NumPy, Power BI, Excel, Matplotlib, Seaborn, EDA, Statistical Analysis
Full Stack Development	HTML, CSS, JavaScript, Flask
Automation & Testing	Selenium, Browser Automation, Automated Test Workflows
Databases & Cloud	SQL, SQLite, Cloudinary
AI & Machine Learning	scikit-learn, NLP, YOLO, Computer Vision, Face Recognition
Tools	Git, GitHub, Razorpay

INTERNSHIP EXPERIENCE

Data Analyst Intern – Nizcare Private Limited, Trichy **Dec 2025 – Present**
- Process and report on business data using Excel and analytics tools; support data management and operations workflows.
- Built responsive website pages and professional email templates using HTML.

Data Analyst Intern – Elevate Labs **Sep 2025 – Nov 2025**
- Recognised as Best Performer; performed data cleaning, preprocessing, and exploratory data analysis.
- Built analytical dashboards and reports using Python and Power BI.

AI & ML Intern – TechShiksha, Bangalore **Jul 2025**
- Developed ML workflows for document intelligence applications using NLP, Computer Vision, and Microsoft Azure Cloud.

Data Science Intern – EdVedha **Mar 2025 – May 2025**
- Built an E-Commerce Product Recommendation System using collaborative filtering, content-based recommendation, and scikit-learn.

PROJECTS

HotelPulse AI – Hotel Analytics SaaS *Data Analytics*
Tech: Python, pandas, SQL
- Built a CSV-based analytics platform for hotel finance data with KPIs (DSO, collection efficiency, overdue analysis), forecasting, and downloadable reports.

PrintFlow AI – SaaS Print Shop Platform *Full Stack*
Tech: FastAPI, Celery, Redis, WebSockets, Razorpay
- Built a print-ordering platform with server-side pricing, payment verification, background job processing, live order tracking, and printer monitoring.

Attendance Automation System *Automation*
Tech: Python, Flask, Selenium, pandas, Regex
- Flask + Selenium system that extracts absentee register numbers from PDF, Excel, CSV, and TXT files and automates attendance marking on the college portal, with a live console and browser screenshots.

SmartPix – AI Event Photo Matching System *Full Stack*
Tech: Python, Flask, JavaScript, Cloudinary
- Full-stack platform that matches guest selfies with event photos using face recognition, QR-based guest access, and Cloudinary storage.

StructAI – AI Structural Health Monitoring *AI & Computer Vision*
Tech: Python, YOLO
- YOLO-based system that detects and classifies structural cracks, with severity assessment, progression tracking, and automated PDF reports.

EDUCATION

B.Tech – Artificial Intelligence and Data Science **Sep 2023 – May 2027**
M.A.M College of Engineering, Tiruchirappalli

HSLC (75.8%) and **SSLC** (80%) – Boiler Plant Boys Higher Secondary School

CERTIFICATIONS

- Excel Dashboard – NoviTech
- Microsoft + LinkedIn – Career Essentials in Generative AI
- Infosys Springboard – Python Basics
- AI Face Recognition – LiveWire
